Inspire 2020 CSR STRATEGY Real Estate 2020 SUSTAINABLE DEVELOPMENT

Dear Partners,

Sustainability and Corporate Social Responsibility (CSR) are an integral part of our activities and business lines at BNP Paribas Real Estate. We are convinced that CSR commitments are a powerful lever of innovation and performance for our clients, partners and employees.

In the context of recent global agreements on sustainable development, on climate change, on future national and European regulations, we thought it was the right time to review and update our CSR Strategy.

That is why, in early summer, we launched an online stakeholders' consultation across Europe. The objective was to gather your opinions about the most important issues as well as your feedback on our CSR commitments.

Many of you shared your opinions with us and we would like to thank you for this constructive and broadminded dialogue. Your answers helped us to better understand your expectations

and refine our vision for 2020.

That is the reason why, today, we would like to share with you the results of the online consultation and our vision, "Inspire Real Estate 2020" in order to aspire towards a more sustainable society for all.

Sincerly yours

"In the current context of climate change, of future national and European regulations, we thought it was the right time to review and update our CSR Strategy."
