GOODS AND SERVICES SUPPLIERS

BNP Paribas Real Estate's "Inspire Real Estate" Corporate Social Responsibility (CSR) vision is to satisfy its clients, partners, and Suppliers with responsible real estate products and services that create shared value and contribute alongside them to the development of sustainable cities.

BNP Paribas Real Estate has defined 12 commitments based around 4 responsibilities:

- 1. Economic responsibility:** Build innovative product and service offerings with our customers and partners in an ethical and responsible manner.
- 2. Environmental responsibility:** Reduce the environmental impact of our activities and make environmental quality a driver of tangible and intangible performance.
- 3. Social responsibility:** Encourage the development and dedication of our employees.
- 4. Civic responsibility:** Be an engaged player in the real estate sector and support local initiatives.

BNP Paribas Real Estate has implemented a Sustainable Procurement Charter. The ability of Suppliers to implement these commitments through appropriate practices is one of the evaluation criteria used by BNP Paribas Real Estate throughout their relationship with their Suppliers. By adhering to this Charter, the Supplier undertakes, on behalf of themselves and any subcontractors, to implement the necessary means to ensure compliance with the principles set out below.

In the event of a breach of this Charter by one of its Suppliers, BNP PARIBAS REAL ESTATE reserves the right to review and, if necessary, terminate the commercial relationship in accordance with the provisions of the applicable law, even in the absence of a written agreement formalising this relationship, without prejudice to BNP PARIBAS REAL ESTATE's other rights or recourse that they may be entitled to exercise. Where national legislation or other applicable regulations and this Charter cover the same subject matter, the highest standards or the most stringent provisions shall apply. When this Charter conflicts with the legislation in force, the latter takes precedence over the Charter.

The reference to BNP Paribas Real Estate in this Charter refers to all companies controlled by BNP Paribas Real Estate, following the Article L. 233-3 of the French Commercial Code.

The reciprocal commitments set out below are based in particular on the fundamental principles of the United Nations Global Pact, to which BNP Paribas Real Estate, as a subsidiary of BNP Paribas, has adhered, in the field of human rights, working conditions, the environment and the fight against corruption, and on the United Nations Guidelines on Business and Human Rights, which specify how companies should comply with their human rights commitments.

BNP PARIBAS REAL ESTATE'S CONTRIBUTION TO THE SUSTAINABLE DEVELOPMENT GOALS

In 2015, the United Nations adopted seventeen Sustainable Development Goals (SDGs). This is a global call to eradicate poverty, inequality and injustice, protect the planet and ensure that human beings live in peace and prosperity by 2030.

To define its actual or potential contribution to this challenge, BNP Paribas Real Estate analysed the link between the SDGs and its CSR commitments set out in "Inspire Real Estate". At the end of this analysis, the objectives chosen by BNP Paribas Real Estate were classified according to 2 levels of priority:

STRATEGIC SUSTAINABLE DEVELOPMENT OBJECTIVES INTEGRATED INTO CURRENT AND FUTURE SERVICES
